INVITATION

The IOS/APB/EACES Summer Academies aim to bring together researchers in a workshop atmosphere. Each participant presents a research project and comments on another one, to be followed by a general discussion. It is expected that the participants' presentations will be up to 25 min, following the comments from a discussant up to 7 min, and general discussion up to 7-8 min.

In addition, three keynote lectures are presented. While participant project presentations and discussions will be workshop restricted, we aim at making keynotes open to the public. Keynoters will select a best paper award winner.

For coffee breaks and happy hours, a joint online virtual space will be made available. Participants will have a chance to have individual consultations with keynote speakers.
